

Babcock Ranch Enters Top Ten on RCLCO List

By Florida Lifestyle Homes

Florida Lifestyle Homes is proud to be a custom home builder in one of the fastest-selling communities in the United States! Babcock Ranch, the first solar town in the country, has been ranked tenth on Robert Charles Lesser & Companies' (RCLCO) [Top 50 Master Planned Community Sales list for mid-2022](#). As sales continue to climb, the Babcock Ranch community is expanding to include more options for local entertainment, shopping, recreation and dining. One of these exciting developments will be Midtown, a new community hub which will boast 8 new neighborhoods and a modernized town center set to offer waterfront dining, shopping, office spaces and condominiums. In order to further Babcock Ranch's commitment to natural landscapes and environmental sustainability, Midtown will be constructed within 7 acres of green space while adhering to the Florida Green Building Coalition's (FGBC) sustainability, water and energy management guidelines. Does that sound familiar? It should! All Florida Lifestyle Homes residences in Babcock Ranch are designed to the same guidelines, with our

popular [Net- Zero Annette](#) model home recently achieving a Platinum certificate from the FGBC!

Florida Lifestyle Homes is ramping up our own projects in Babcock Ranch with three new private residences, including the brand-new [Valentina](#) custom home design, set to be completed in 2023 preceding our [next Net-Zero Annette](#) model.
